

## **Virtualisation: A Quiet Revolution – City of West Torrens, Chris James**

### **Who has heard of Virtualisation?**

Who would like a business solution that -:

- reduces costs by over 50%
- pays for itself in less than two years
- more than triples business performance
- reduces power consumption by 80%

### **3 Key Points:**

1. Since 2005 a new technology called VIRTUALISATION has swept the planet; It is having more impact on businesses than PCs and the Internet
2. The CoWT has arguably the best implementation of Virtualisation in SA LG
3. The technology is changing the way businesses do things.
