Important notes

This document has been prepared by Rawtec Pty Ltd (Rawtec) for a specific purpose and client (as named in this document) and is intended to be used solely for that purpose by that client.

The information in this list is believed to be correct at the time the list was created. There is no guarantee that this information will remain accurate over time, or that the products contain the materials stated in this list. It is strongly recommended that further investigation with the organisation is undertaken to confirm product details and specifications.

The information contained within this document is based upon sources, experimentation and methodology which at the time of preparing this document were believed to be reasonably reliable and the accuracy of this information subsequent to this date may not necessarily be valid. This information is not to be relied upon or extrapolated beyond its intended purpose by the client or a third party unless it is confirmed in writing by Rawtec that it is permissible and appropriate to do so.

Unless expressly provided in this document, no part of this document may be reproduced or copied in any form or by any means without the prior written consent of Rawtec or the client.

The information in this document may be confidential and legally privileged. If you are not the intended recipient of this document (or parts thereof), or do not have permission from Rawtec or the client for access to it, please immediately notify Rawtec or the client and destroy the document (or parts thereof).

This document, parts thereof or the information contained therein must not be used in a misleading, deceptive, defamatory or inaccurate manner or in any way that may otherwise be prejudicial to Rawtec, including without limitation, in order to imply that Rawtec has endorsed a particular product or service.

Recycled content product and company list

This document provides a list of companies that may sell products to Australian Councils (and other organisations) containing recycled content. There are five broad product categories:

1. Bins
2. Construction materials
3. Fixtures
4. Miscellaneous
5. Office and stationery
6. Organic materials

Each product is also designated a subcategory to allow a refined search in the next stage of the project, the excel tool. Note that some companies offer many products. Individual entries for each available product may not be included, instead grouped together with indicative guidance on the range of products available.

If the product is included in an LGA Procurement Panel Contract, this is indicated with a tick in the below tables. LGA Procurement Panel Contracts provide a streamlined service attuned to the idiosyncrasies of local government. For more information please visit:

<https://www.lga.sa.gov.au/LGAProcurement>.

This list is based on a desktop review only and we do not guarantee that every organisation that sells products containing recycled content will be included in this list. We also do not guarantee that the companies in this list will sell products with recycled content – further investigation would be required as this is a guide/ starting point only. We recommend follow up and investigation with the supplier to confirm the information provided below.

The information in this list is believed to be correct at the time the list was created. There is no guarantee that this information will remain accurate over time, or that the products contain the materials stated in this list. It is strongly recommended that further investigation with the organisation is undertaken to confirm product details and specifications.

This is not a complete list of every company in Australia that sells products with recycled content. This is a starting point only. Further research may be required to identify other companies or products that exist. On some occasions, companies have not been able to confirm information provided in this document and as such, it is important for councils to clarify these details with the respective company prior to purchasing any products.

Bins

Company name	Sub category	Product name/type	Recycled materials	Manufacture location	LGAP Panel Contract
Bin Shift	Indoor bin	Indoor Waste Separation and Recycling Bins	Cardboard	SA	
Biobag World	Kitchen Caddies	Kitchen caddy	Plastic (TBA)	Netley, SA	✓
Commercial Systems Australia	Public place	Slat litter bins (Enviroslat only) Bin enclosures (Enviroslat only)	Timber, Plastic (TBA)	Kilsyth, Vic	✓
Eco Bin	Residential & Commercial bins	Office bins (60 litre Flip bin)	PP (plastic)	TBA	
Mastec	Residential & Commercial bins	Bins (various including kerbside and kitchen caddies)	HDPE (plastic)	Edinburgh, SA	✓
